## Comment text:

Why do there need to be so many wards. Isn't this just creating more jobs and more red tape for the fat cats at the council?

Why can't you divide the map into 5 sections, something like:

North Northants East  
North Northants West  
North Northants North  
North Northants South  
North Northants Central

This exercise should be about saving money, better to have fewer wards with more resource allocated to each, than tiny pockets of local bureaucracy at every turn and confusion reigning supreme.
