Postcode: [REDACTED]

Organisation Name: Nash Village Hall (Representative of a local organisation)

Comment text:

Dear Sirs

We understand from our local Parish Council that it is proposed to move the Parishes of Nash and Boraton from Clee division to Cleobury Mortimer division for the purposes of Shropshire Councillor representation.

We have searched your webpage at <https://www.lgbce.org.uk/all-reviews/shropshire> under the section detailing changes to the parish electoral arrangements for the parish and town councils and can find no information relating to changes in respect of Nash or Boraston parishes. We have also word searched your 70 page full report on this link https://www.lgbce.org.uk/sites/default/files/2023-05/shropshire_dr_long_report_-_corrected_-_cover.pdf and can find no mention of either Nash parish or Boraston parish. It would seem therefore that the consultation process is fundamentally flawed.

If the proposed move is correct then we must object in the strongest possible terms. Our Village Hall has been constituted to serve the parish of Nash and surrounding parishes including Boraston, Whitton and Greete (all in the current Clee division) for almost 100 years and it forms an integral part of our local community. As a community hub we feel it is important that our Shropshire Council representation is in close touch with the needs of both our community and the surrounding communities we serve. Splitting these communities between electoral divisions and moving our representation to a Councillor distant to our location will have a detrimental effect on community cohesion and can only result in reducing both the effectiveness of local government and our ability to influence the local decision making process.

Please log our objection to the Boundary Commission proposals for Shropshire, specifically the proposed move of the parishes of Nash and Boraton from Clee division to Cleobury Mortimer division.

For and on behalf of the Trustees
