Related subject: Church Pulverbatch

The parish of Church Pulverbatch. covers the areas of Wilderley, Cothercote, Wrenthall, Church and Castle Pulverbatch physically spread over a wide area. This is a self help village... we have to provide for ourselves but there is a very strong community spirit with a village hall and church to bring the village together. We have to travel elsewhere for all other amenities. The children travel towards Longden, Pontesbury and Church Stretton for schooling. The bus travels to and from Shrewsbury. Doctors' surgeries are at Dorrington, Bayston Hill and Pontesbury. Village shops are at Longden and Dorrington. The Church is in Pontesbury Deanery. There is absolutely nothing to link the village to the Bishops Castle area regarding amenities. Belonging to Burnell division makes a lot of sense as a Councillor can travel through the area relatively easily. Joining with Bishops Castle creates a very large physical area with narrow, local roads. I also disagree with putting Burnell with Bayston Hill which I regard as an urban area with nothing in common with our rural parish.

Please leave Burnell division as it is - it looks as if your proposal is just a numbers exercise with no thought given to the parishioners, local terrain or the ability of a councillor to service a much larger land area.
