Organisation Name: (Member of the public)

Comment text:

Having looked at the map for the bishops castle area, in which I am a resident, it would seem as if the boundary is being extended to include pulverbatch, smethcott and cuthcott. These areas are a distance from bishops castle and have no connection with it at all. Residents in these areas are drawn towards shrewsbury and church stretton and consequently have very little affiliation with bishops castle. I would suggest that the boundary changes are looked at again to take these aspects into consideration.
