Comment text:

Related subject: Wem Town (South East)

I live in the area that will be detached from Wem town and placed with Wem Rural and Whixall, and strongly object to this proposal. We look to Wem town for our services - moving us into another area will disenfranchise us. From previous dealings with councillors from Wem Rural - though efficient - they have no concept of the needs of residents who live in Wem town. They also do not appreciate the importance and impact of the level crossing that links us with central Wem.
