Related subject: Addingham

My main association is with Ilkley. It is 5 minutes away by car and provides most of what I need. It works well for me. I also go to Skipton but that is 10 minutes away - I mainly go for physio appointments and occasionally to the shops. I infrequently go to Steeton to the hospital and never ever to Bradford.

I just wish we could leave Bradford altogether. It is not a place where I feel safe. I know though this is not an option with the current review but I would feel very uncomfortable if this review associates Addingham more with the Aire valley and in particular Keighley and Bradford.
