Related subject: Burley in Wharfedale

Bradford Council are only interested in getting money from us, giving little or no facilities for the high Council Tax we pay. They have forced the building ON GREEN BELT LAND of 450 homes in the village just to get money. No provision will be made for additional schools, and our Doctors surgery is only getting assistance to extend due to our MP Philip Davies tenacity. The roads are full of weeds, the drains become clogged, and it takes forever to get the street lights repaired yet in the centre of Bradford the Council spend large amounts of money on things like the City of Culture which will probably bankrupt them. Residents in the centre Bradford get all the facilities they want or need whilst we have to provide for ourselves through the Parish Council (waste bin emptying, grass mowing etc) Burley in Wharfedale is in a Leeds postcode and doesn't have a Bradford telephone prefix. I would fully support leaving Bradford Council for a new set-up.
