Comment text:

Related subject: Proposed changes to council wards and ward boundaries for the Bradford District.

I do not feel that Bradford Council represents my views on building on local green belt areas. Additionally, the council's budget allocation and financial management does not inspire confidence for now and in the future. I am in favour of forming a new local authority comprising of the current Shipley and Keighley parliamentary constituencies, and I would like to see a local vote on this matter and a timetable for implementation at the next general election.
