Related subject: Burley in Wharfedale

I think it is time to review the confined inclusion of this area within Bradford MDC. I have lived here for more than 30 years and initially orientated myself to Bradford but as time had gone on I see a growing disconnect that has only grown. Many people see little benefits in belonging to Bradford MDC a city that has conspicuously failed to reinvent itself (unlike Leeds) fuelled with grievances including the cavalier attitude Bradford has to the green belt in this area. It is time for this to end.
