For the Attention of those involved in the Bradford MDC Review

Dear Sir/Madam

I am a resident of Baildon and recently received an "In Touch" News Update from my MP, Mr Philip Davies.

In his leaflet Mr. Davies urges constituents to contact you to press for a radical change whereby Shipley and Keighley constituencies break away from CBMDC and form a new unit of local government.

I contact you to express my opposition to the Davies/Moore proposal. I see this as being selfish (with just possibly a hint of racism ??)

As currently configured, comprising five parliamentary constituencies, Bradford District is of a size to make economies of scale sense as a metropolitan district. More over, it is inclusive and heterogenous.

I sense that these last two qualities are of little interest to Mr Davies.

I assume that any proposal to set up a new local authority made up of Shipley and Keighley constituencies is outwith the remit of your review. If "yes" then you can bat it away whilst hopefully treating it with the contempt I feel for it.

Yours faithfully
