Comment text:

Related subject: Council boundary

Although excluded apparently from the scope of this review (in that case where can one express views if not in a boundary consultation?!), the Shipley and Keighley constituencies should be removed from Bradford District into a new council separate from Bradford. I say this after 35 years of experience within Bradford District. My reasons include disproportionate lack of services (with outstanding exceptions such as Rights of Way) and other disagreements which were of a legal nature.
