## Comment text:

Please acknowledge my despair with Bradford Council, who appear to have NO interest in keighley (where I live) ilkley or Shipley. I fully support Robbie Moore M.P. in his determination to make our own decisions without Bradford Council sledge hammering through any opposition. Even the green space left after demolition of the old technical college in Keighley AND OVERWHELMINGLY VOTED for by residents of keighley is at threat of being over shadowed by designs from Bradford Council. We Pay the council rates So WE should make OUR decisions for OUR AREA. Thank you for your attention. [REDACTED]
