Related subject: Shipley

The Shipley ward includes some very diverse areas with very different needs. Our MP does not represent the views or tackle the needs of the people of Shipley town. It's hard to see whole swathes of people struggling with the cost of living. I hear about community ventures in other areas, where power is generated locally at a cost that local people can afford. That would not happen in Shipley. The Campaign for Rural England CPRE has launched a campaign to have solar panels on industrial buildings and warehouses, instead of using farmland. This seems like a really good idea, and yet our MP has refused to support this proposal. How is this possible, when the rest of the population is trying to protect the future of our planet. Shipley town needs its own MP.

Please redraw the boundaries, so that Shipley town can have an MP that fights for our needs.
