**Related subject:** Keighley

As a former resident in the Keighley West ward, I would observe that it is not a single homogeneous entity. There is a distinct north and south which has virtually no connection. I believe this was forced by a perceived need for a central ward, which is another artificial creation to create a Muslim- dominated ward. This leads to voting for wrong reasons not based on politics as I understand it.  
I would also suggest that the name of my current ward, Shipley, is changed to Saltaire. One reason is to avoid confusion with the parliamentary constituency.
