Related subject: Keighley

Quite frankly does it matter where the boundaries are, as currently the residents and businesses of Keighley are largely ignored and overlooked by Bradford Council!

Trying to contact Bradford Council is made as difficult as possible. Complain about Bradford Council and you are ignored! If your complaint is justified then no apology is ever forthcoming.

Is Bradford Council fit for purpose? Increasingly the overwhelming evidence across the council's services is that Bradford Council IS NOT fit for purpose.

Keighley, and places like Ilkley, Silsden and surrounding areas would be far better serviced by a more localised council that would have the interests of the area at heart not, as Bradford Council currently does, only pay lip service to the area, and often only then when forced to by public opinion or our hard-working Member of Parliament!
