## Comment text:

**Related subject:** Whoberley Ward, Coventry

I think that Allesley Park, currently part of the Whoberley Ward, is a self contained area that is very different from other parts of the Ward which are Whoberley and Chapelfields areas. Allesley Park is very different in occupancy, community and public services needs. Allesley Park, has its own Community Centre, GP Practice, Nisa Supermarket, Library and 3 Primary Schools, would be better situated/included in the Bablake Ward. The natural point at which Allesley Park begins is where the River Sherbourne runs behind St.Christopher's Primary School, Nisa Supermarket and Allesley Park Medical Centre, so this could be the boundary for the Whoberley Ward. The Allesley Park area is situated next to the area of Allesley, which is included in the current Bablake Ward, so it would make sense for the two to be in the Bablake Ward.  
Thankyou for listening to my view.
