## Comment text:

**Related subject:** Sherbourne

It is important to keep the neighbourhoods of Spon End and Coundon together in the same ward. They have been together since Sherbourne ward was created and share key resources and amenities whilst identifying with each other

-We support the adding most of the AD box from Bablake to Sherbourne. It has never made sense that Coundon is split between two wards. Residents in the area of AD which it is proposed will move into Sherbourne use the same place of worship to vote at (Christ the King), primary schools (Holyfast and Christ the King) and the shops on Westhill Rd. The playing fields of Bablake school could also form a natural boundary between wards.
