The Parish Council disagrees with the proposal to include the Parish of Croxdale & Hett within the Tudhoe division instead of the current Coxhoe division. The Parish Council was not aware nor consulted on the proposal with the only reason been that the Parish has more 'natural' links with Tudhoe in comparison to Coxhoe.

Regardless of the 'natural' links, the Parish Council, residents as well as Community Associations have strong and reputable relationships in place with the elected County Councillors that have been serving the residents of the Parish and know the area historically.

Although the Tudhoe division is in closer proximity of the Parish, the Parish Council feels this is irrelevant due to the number of years it has been included in the Coxhoe division with no issues of distance been raised.

The Parish Council urges for the proposal to be re-considered and for the Parish of Croxdale and Hett to remain with the Coxhoe division.
