Related subject: Upton Snodsbury

I note that there is a proposal within the Wychavon District to remove Kington & Dormston from the Upton Snodsbury Division into the adjacent Bowbrook Division which has received some support from WCC solely in an effort to balance their variance figures. I have consulted with numerous local residents and parish Council and can find no support for this proposal. They currently share many Community facilities with the cluster of other adjacent similar small rural villages in their existing Division. This includes schools, village halls ,family ties within the agricultural sector and many community groups including nurseries and sport facilities and clubs. To create a balance it is proposed to put Tibberton from polling district RJ into Upton Snodsbury. Tibberton naturally looks towards the town of Droitwich and is becoming more urbanised with developments underway linking ever closer to the town and the proximity of the M5 encouraging commuters with little link to the rural character and current population of Upton Snodsbury.
