Clent Hills is difficult to represent equally as whole of all the villages it covers. Hagley is an equal size to all other villages in the County Division. It is difficult to represent equally all of the villages and I believe that Hagley should be a separate Division and be separate to all the others. Hagley has c7,500 population and 3,000, dwellings, its own commercial centre and has the major road infrastructure, schools, health, library and is highly reliant on a focused representation.
