Elstead Parish Council strongly disagrees with the proposed division name change from Waverley Western Villages to Frensham-Elstead-Hindhead. Waverley Western Villages encapsulates all the communities within this division whereas the proposed name seeks to erase a number of villages within the division including Dockenfield, Tilford, Churt and Thurlsey thus giving these communities the sense that they have no voice or identity. The name Western Villages is already very well defined and established with groups meeting under this name banner. The proposed name change makes no sense as the village names should be listed alphabetically. We strongly ask that the name Waverley Western Villages is retained.
