It is intolerable that the rural villages of Oker and Snitterton were "lumped" into the urban district of Matlock West against the wishes of the residents of the villages and the local councils and authorities in what was clearly a number exercise and failed to take account of the local views, supposedly the first priority when boundary changes are being reviewed and represents a clear dereliction of duty by the Boundaries Commission's Officers.

This rural Parish boasts a School, Church and Village Hall and has different needs and has little relevance to the urban area of Matlock.
