## Comment text:

**Related subject:** Ward Boundary Consultation for Derbyshire County Council

I am writing to urge the Boundary Commission to follow the parish/ town boundary for South Darley parish and not the current district boundary with Matlock which South Darley Parish Council are seeking to overturn in conjunction with DDDC.  
For the avoidance of doubt I would wish to see Oker and Snitterton Ward reunited with South Darley given the numerous local connections such as the school, church ,reading rooms and village hall within the parish which contribute to the sense of community and identity which is distinctly different to the urban configuration of Matlock
