Related subject: Netherton & Orrell and St Oswalds

The current boundaries of these two Wards make no sense at all.

I'm in Netherton & Orrell, at the corner of Bridge Lane and Stand Park Way. Stand Park Way and one side of Bridge Lane (odd nos) is Netherton & Orrell - the other side (even nos) is St Oswalds. Netherton Moss school and the Marion Square (the shopping centre for Netherton) is St Oswalds. Similarly, Leonard Cheshire Drive is St Oswalds, but the houses which back onto it are Netherton!

For some some bizarre reason actual Netherton has been split right through the middle (with one part named St Oswalds) and then the other half inexplicably linked with Orrell - which is a completely different area.

It's very clear that whoever took a crayon to a local map has absolutely no knowledge of the local area (L30) at all, and has not respected any of the natural boundaries.

It appears that other Wards have been similarly split right through the middle.

Why not just Post Codes as a starting point for re-drawing. More importantly use the local knowledge of the people who live there!

Netherton needs to return to just being the "Netherton" area and encompassing the St Oswald area. Orrell Park needs to be hived off.
