## Comment text:

**Related subject:** Oxshott boundary changes

As a resident of Oxshott for over 30 years I strongly object to your boundary changes. As a community we have spent the last 30 years uniting the village and making improvements to our local area . By implementing your proposals you will leave us with no body representing our traffic concerns on the A244 and a village with no name. Leave the boundary unchanged the local councillors work very hard on our behalf and no change is necessary.
