Comment text:

As long term residents of the area of Weston Green & Thames Ditton we object to the local proposed Boundary Commission changes as

Thames Ditton & Weston Green have been inextricably linked for centuries

The communities have been extremely cohesive with a sense of community spirit and maintaining the quality environment, spirit & ethos of the joint residents

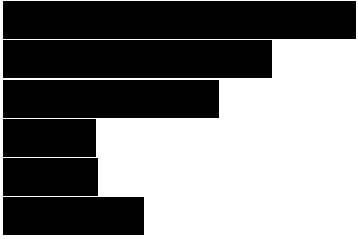

Thames Ditton & Weston Green have one of the longest serving Residents Association in England

We fully support maintaining the current boundaries linking Thames Ditton & Weston Green for all the reasons above and those that the Residents Association will be writing to you about.

Our family lives across the existing borders with ourselves in Weston Green and our two sons and their families living in Thames Ditton & enhances our family values to be united across the existing boundaries

My wife shares the above objections and this email is sent on behalf of each of us

Yours sincerely,
