Related subject: Proposed new Oxshott boundaries

I strongly disagree with the proposed changes. Oxshott is a thriving village community with schools, shops, a sports club and a medical centre. The proposed new positioning of the boundary line to follow the A244 is completely unnecessary and will split our village high street in half. It is very important that Oxshott should remain in tact to continue to keep its village identity and should not be subject to change for political benefits.
This proposed alteration can only be detrimental to our community.
