To whom it may concern

I am very concerned about the proposed removal of the village of Jacobs Well being removed from the Worplesdon administration of Surrey County Council

Having lived in Jacobs Well for 26 years we feel part of a semi rural village community. Which has been excellently represented by our Parish councillors at Worplesdon PC as well as our County councillor. I have also spent time of the Jacobs Well Residents association and found the councillors supportive against many proposals that would have been detrimental to the village. More recently Worplesdon Parish Council even purchased our village meadow to prevent the incursion of Slyfield Industrial estate into our village.

I am not at all happy about being removed from these administrations in order to represented by the much more urban area administration of Bellfields and Slyfield housing estates.

It is my understanding that Worplesdon PC have also objected to this proposal in the change of administration

I see no reason why our boundary should be changed against our will and that of our current representatives. Please reconsider this decision

I look forward to being kept informed

Kind regards
