## Comment text:

I strongly object to the proposals by LGBCE for Oxshott. We are a real community of 5000 people. We have our own high street, station, schools and medical centre. There's no justification for dividing the village by an arbitrary line using the main road. Even important, there's no justification for getting rid of the name Oxshott.

The recommendations sacrifice the community of the village and is disrespectful to the residents. therefore I request LGBCE revise its recommendations on basis that properly respects the 2nd key considerations of LGBCE of " ensuring that the recommendations reflect community identity ". In my view this can best be done by retaining the existing boundaries whereby Oxshott continues to be part of hinchley wood claygate and Oxshott.
