Comment text:

We strongly object to the new proposal on the grounds that Weston Green and Thames Ditton share so many amenities together. The village is central to them both not to mention the schools and local activities etc. Molesey residents have their own high street and related events eg carnival and street parties. Weston Green is Geographically connected to the Thames Ditton High street for that purpose . They also both share in voluntary work looking after the Station and cleaning up of litter etc as the streets are common. Molesey is at least a mile and a half away! Please reconsider your decision.

Yours sincerely
