Comment text:

Many issues within Surrey have still not been resolved. These include free rail and bus transport for the over 55s, taxi vouchers, fair distribution of supermarket vouchers based on applicant's request and the applicant's own assessment of their requirement for financial assistance with the cost of living and NOT on the Council's current method of outsourcing responsibility to biased & prejudiced CAB or other bodies, better access to entertainment such as films & theatre and other cultural events that are currently absolutely unaffordable, better housing for those requesting it & needing it without unnecessary and delaying bureaucracy & demands for documents that a homeless or emergency-housed person might not have, day travelcards to London free for the over 55s and low or no income persons, free home delivery for persons who use the Food Bank and Food Club and are finding it difficult & unaffordable to drag the heavy food tins home on foot or pay for a taxi to get home, cleaner streets and safe green parks to relax in with public toilets on site, public transport access and toilets plus water & electricity for all allotments, requirement of well-ventilated/cheap/dry/large/lockable council garages for rent to members of the public who wish to have one, and many other issues & problems that current councillors have not dealt with. Expanding your number and boundaries will not make you more effective nor will it help in addressing current problems in Surrey, especially the troubling issue of finding trustworthy and genuinely qualified policemen & policewomen who do not have a criminal background. Also very, very worrying is the rise of prostitution, paedophiles, rape, theft and crime in Surrey.
