Organisation Name: Fulwell ward Councillor (District or county councillor)

Comment text:

Dear Boundary Commission,

I am a Councillor on Sunderland City Council representing Fulwell Ward.

I'm writing in broad approval of the Commission's proposal for Fulwell. The proposal is a good one , it keeps a cohesive South Bents and Seaburn and retains the link with these areas and the Sea Road area of Fulwell. Seaburn Dene and the "D" streets are included and the community schools ,medical practice , dental practice and library are kept as one in the ward.

However,

I wish to make a representation to the boundaries review that the streets between the railway line and Newcastle Rd remain in Fulwell Ward (Haversham, Cairns Rd , Coniston, Kirkstone Ave , Rydal and Honister etc.) and are not moved into Southwick Ward. My suggestion is based on the fact that residents in these streets see themselves as very much part of the Fulwell community of schools , library etc and are in no way part of Southwick. From my recent contacts with residents I've been made fully aware that they share this view.

I support the boundaries at Browne Rd and Newcastle Road they are easily identified and moving the northerly side of Neale St and Elvington into St Peter's Ward is , I believe, less contentious with residents. It also keeps Roker Park and nearby churches firmly in St Peter's Ward.

Thank you.

Kind regards,

Cllr. Malcolm Bond
