Related subject: Elmdon

Wards, I always thought, were supposed to be close knit communities of people.

With a huge Airport and a very busy Main A-Road splitting us, I do not see how Elmdon Ward can become part of Meriden...and I haven't even mentioned HS2 or the fact that CV Postcodes will also be included.

As none of us can clearly see where our Council Tax goes, I would to know how it would work after these changes. Will Berkswell now be paying to Solihull, will all money from Elmdon be spent in Chelmsley Wood. Is this just about the number of voters, will I end up with an MP or Councillor I didn't vote for or at least an MP or Councillor that my Ward didn't vote for.

You should be leafleting every ward, letting them know all the details. What these changed will actually mean to our every day lives. Even this website doesn't give us the answers we need so I am giving my views on what I think is going to happen!
