## Comment text:

**Related subject:** Whitstable

I think the wards of seasalter, Gorrell, tankerton, swalecliffe and chestfield should be merged into one single ward because these wards all share common local issues, features, infrastructure, schools and transport links. Furthermore a dominant feature in this area is the coast line we share across all the wards mentioned and tourism to the community. I also believe this single ward would make more sense to local residents when voting and the issues that we all share as a community. I think we should continue to be represented by the same number of councillors we are currently across all the wards but one large constituency.
