Related subject: Netherton area review South Crosland

Some of the older generation here seem to want us to change our boundaries and belong to the Honl6and Meltham areas. As a young person, I'm totally happy with staying in our Crosland Moor and Lockwood area. I went to school with all of those kids, went to 6th form college with them too and we have far more in common with them, plus we share the main road into town corridor plus the moorland historical corridor.
