Comment text:

Related subject: Netherton and Crosland Moor

This is a very strange linking of areas, they have very little in common in terms of shared amenities and infrastructures. Netherton is linked more to both Honley and Meltham, Honley in terms of proximity and schools plus shared open spaces such as Magdale. The new housing in Netherton pushes the village further into Honley and it would be a better reflection of public views if these areas were linked as a constituency.
