## Comment text:

**Related subject:** Netherton

I think Netherton needs its own council, we get very little support from our current councillors (who focus their attentions on Crosland Moor) and as a result our infrastructure is decaying, our community events lack support/ funding and our views are not represented.

I think Netherton should be aligned to honley, meltham and holmfirth. Their councillors represent their views (which align to ours) and they provide a lot more support for community projects and as a result there is a much stronger feeling of community.

I think Kirklees should be broken up because Huddersfield/ Holmfirth get far less funding than the Dewsbury etc. Huddersfield and Holmfirth town centres lack investment and a strategy to get to net zero carbon emissions. I think this can only be achieved if Huddersfield and Holmfirth are separated from the rest of Kirklees.
