Comment text:

I write in respect of the proposals to amend the electoral boundaries which if passed will result in my part of the neighbourhood served by Southwick ward.

I strongly object to such changes and request that you maintain the existing boundary of Newcastle Road.

I have lived in Fulwell since 2007 and the neighbourhood is an integral part of my community life and my preference is to be represented by ward councillors who serve this area. I like many of my neighbours regularly use the amenities in the Sea Road area.

I like the fact too that my Local Councilors (Liberal/Conservative) keep me updated on key issues concerning the Fulwell and Seaburn areas and am not convinced this would be a priority if these changes were to be implemented.

The local and famous windmill landmark which is on Newcastle Road itself for the whole of my life (59 year old) has always been known as Fulwell Mill as has the local pub the Fulwell Grange. In addition my estate together with neighbouring Cairns Road, Kirkstone Avenue etc are certainly closer to the centre of Fulwell and its core services and amenities in comparison to Southwick.

I believe that these plans would not be treating the effected residents fairly and request that they are immediately scrapped as I passionately believe it would be to the disadvantage of my family and that of others in nearby surrounds.

I look forward to your response.
