**Related subject:** Hollycarrside, Ryhope, Sunderland

I strongly object to the proposal to remove Hollycarrside from the Ryhope ward, Hollycarrside, in my lifetime (85years old) has always been an integral part of Ryhope in fact more than any other area of Ryhope.

Hollycarrside shares community assets with the rest of Ryhope and access to these community groups would be restricted due to changes in funding. Taking out Hollycarrside from Ryhope could mean changes to schooling, Doctors surgery (area changes) Health centres. etc. at the moment the Health Centre and Doctors surgery are a five minutes walk away from my area, this includes schools and shopping

If we are moved to the Grangetown/Hendon ward: schools, Health Centres etc would be miles away plus if you could not afford bus or taxi fares appointments would be missed.

There are no major roads to cross from Hollycarrside to Ryhope Village, if the boundary is changed it would mean crossing two major roads going to Grangetown/Hendon facilities, this would create a danger for young and elderly people.
