Hi,

In reference to the recent boundary review for Sunderland City council.

I broadly support the draft proposals of my area- Doxford ward. The proposal keeps Moorside & East Moorside together and within the area that runs either side of Doxford Park Way and would therefore not make sense to place them within a different ward.

In the draft proposals the terrace streets south of the main road in Silksworth were placed within the Doxford ward however I would like to suggest putting these into the Farringdon and Silksworth ward as these houses/residents have a strong identity of living within Silksworth and the housing type differs from the new build estates across the majority of Doxford ward.

I believe that the boundary between Doxford and Ryhope wards should keep all of Tunstall Village within the Ryhope ward along with Tunstall Bank estate as the residents see themselves as living in Ryhope along with residents in Skipsea View & Withernsea Grove that should also be within the Ryhope ward.

Lastly I think the boundary should run down the new road of Rotary Road which would create a clear, identifiable boundary.

Thanks
