Related subject: Proposals for Washington including the villages of Oxclose, Ayton, Lambton and Rickleton

None of these proposals match my views, or represent what I think most 'locals' where I live would consider their community - especially people who have grown up here over the last 40 years.

The closest match would be the draft proposal for Washington West - however, I would say most people who live here would consider that Y05 and V01 form part of the whole Ayton/Lambton/Oxclose community. The housing styles are the same across Lambton and should not be split into a different 'Central' area.
