## Comment text:

I agree with Commission's proposed for the SandHill Ward. The proposal improves on the existing arrangements by making sure that all parts of Grindon and Springwell are included in ward boundaries.

All the local facilities including Barnes Park Extention, Sandhill View School, Grindons YoungPeoples Centre, Thorney Close Action and enterprise Centre, and the Churches in all the vicinities, this makes sense to have these and more included in the one ward.

The proposed Ward has clear and easy to understand Boundaries along Chester Road and the A19, the edge of Springwell Estate which runs along the park is easy for everyone to understand. The busy dual carriageway at Chester Road (A183 ) already provides a hard Boundary between Hastings Hill and Pennywell to the North

I do not believe sharing a Ward across a duel carriageway would provide an effective local representation. I have lived in this house 50 years and I have seen all the people as one big family who are very passionate about where we live and the things that go on in the ward, we are very happy the way we are. Not really sure the need to split up wards when they working fine as they are.

Thank you
