Related subject: Fulwell

Hello,

I live [REDACTED] in Seaburn. I agree with the Boundary Commission's decision to keep Fulwell and Seaburn together in the same ward. Our communities are so heavily linked It is hard to distinguish where an actual border between the two areas would be. We also share the same community assets which should be cared for by councillors who are accountable to the people who use them.

I believe that the border with St Peter's is too far South. and that the Streets between Browne Road and Neale Street should become part of St Peter's ward. I also do not believe Clifton Road should become part of Fulwell Ward as residents use Roker Park more than Seaburn Park. And should be represented by councillors from Roker/St Peter's.

As someone who also attended St Aidan's Boys Academy in the current St Michael's Ward, I agree with the proposal from the Tunstall and Humbleden ward. This would keep families that rely on the same services together in the same ward, allowing better representation by local democracy.
