Comment text:

Related subject: Banbury Ruscote

I have taken a look at the proposed new boundary Banbury Ruscote for 2025 .

I have concerns that the number of new houses west of Bretch hill don't seem to appear on your maps currently over 500 homes are built by Bloor homes with another 250 planned near Withycombe farm with orbit, Housing developments planning another 250 homes on the other side of Balmoral Avenue accessible from Broughton Road these numbers need to be taken into account before extending the new ruscote boundaries into Easington. As stated before extending the two balmoral Avenue is a sensible option, but taking out of Banbury Ruscote Woodgreen Avenue, Park Road, Gillett Road, Deacon Road, Hilton Road , Wimborne Avenue Kings Road, which has traditionally always been part of Banbury Ruscote to a New Cross and nietrop

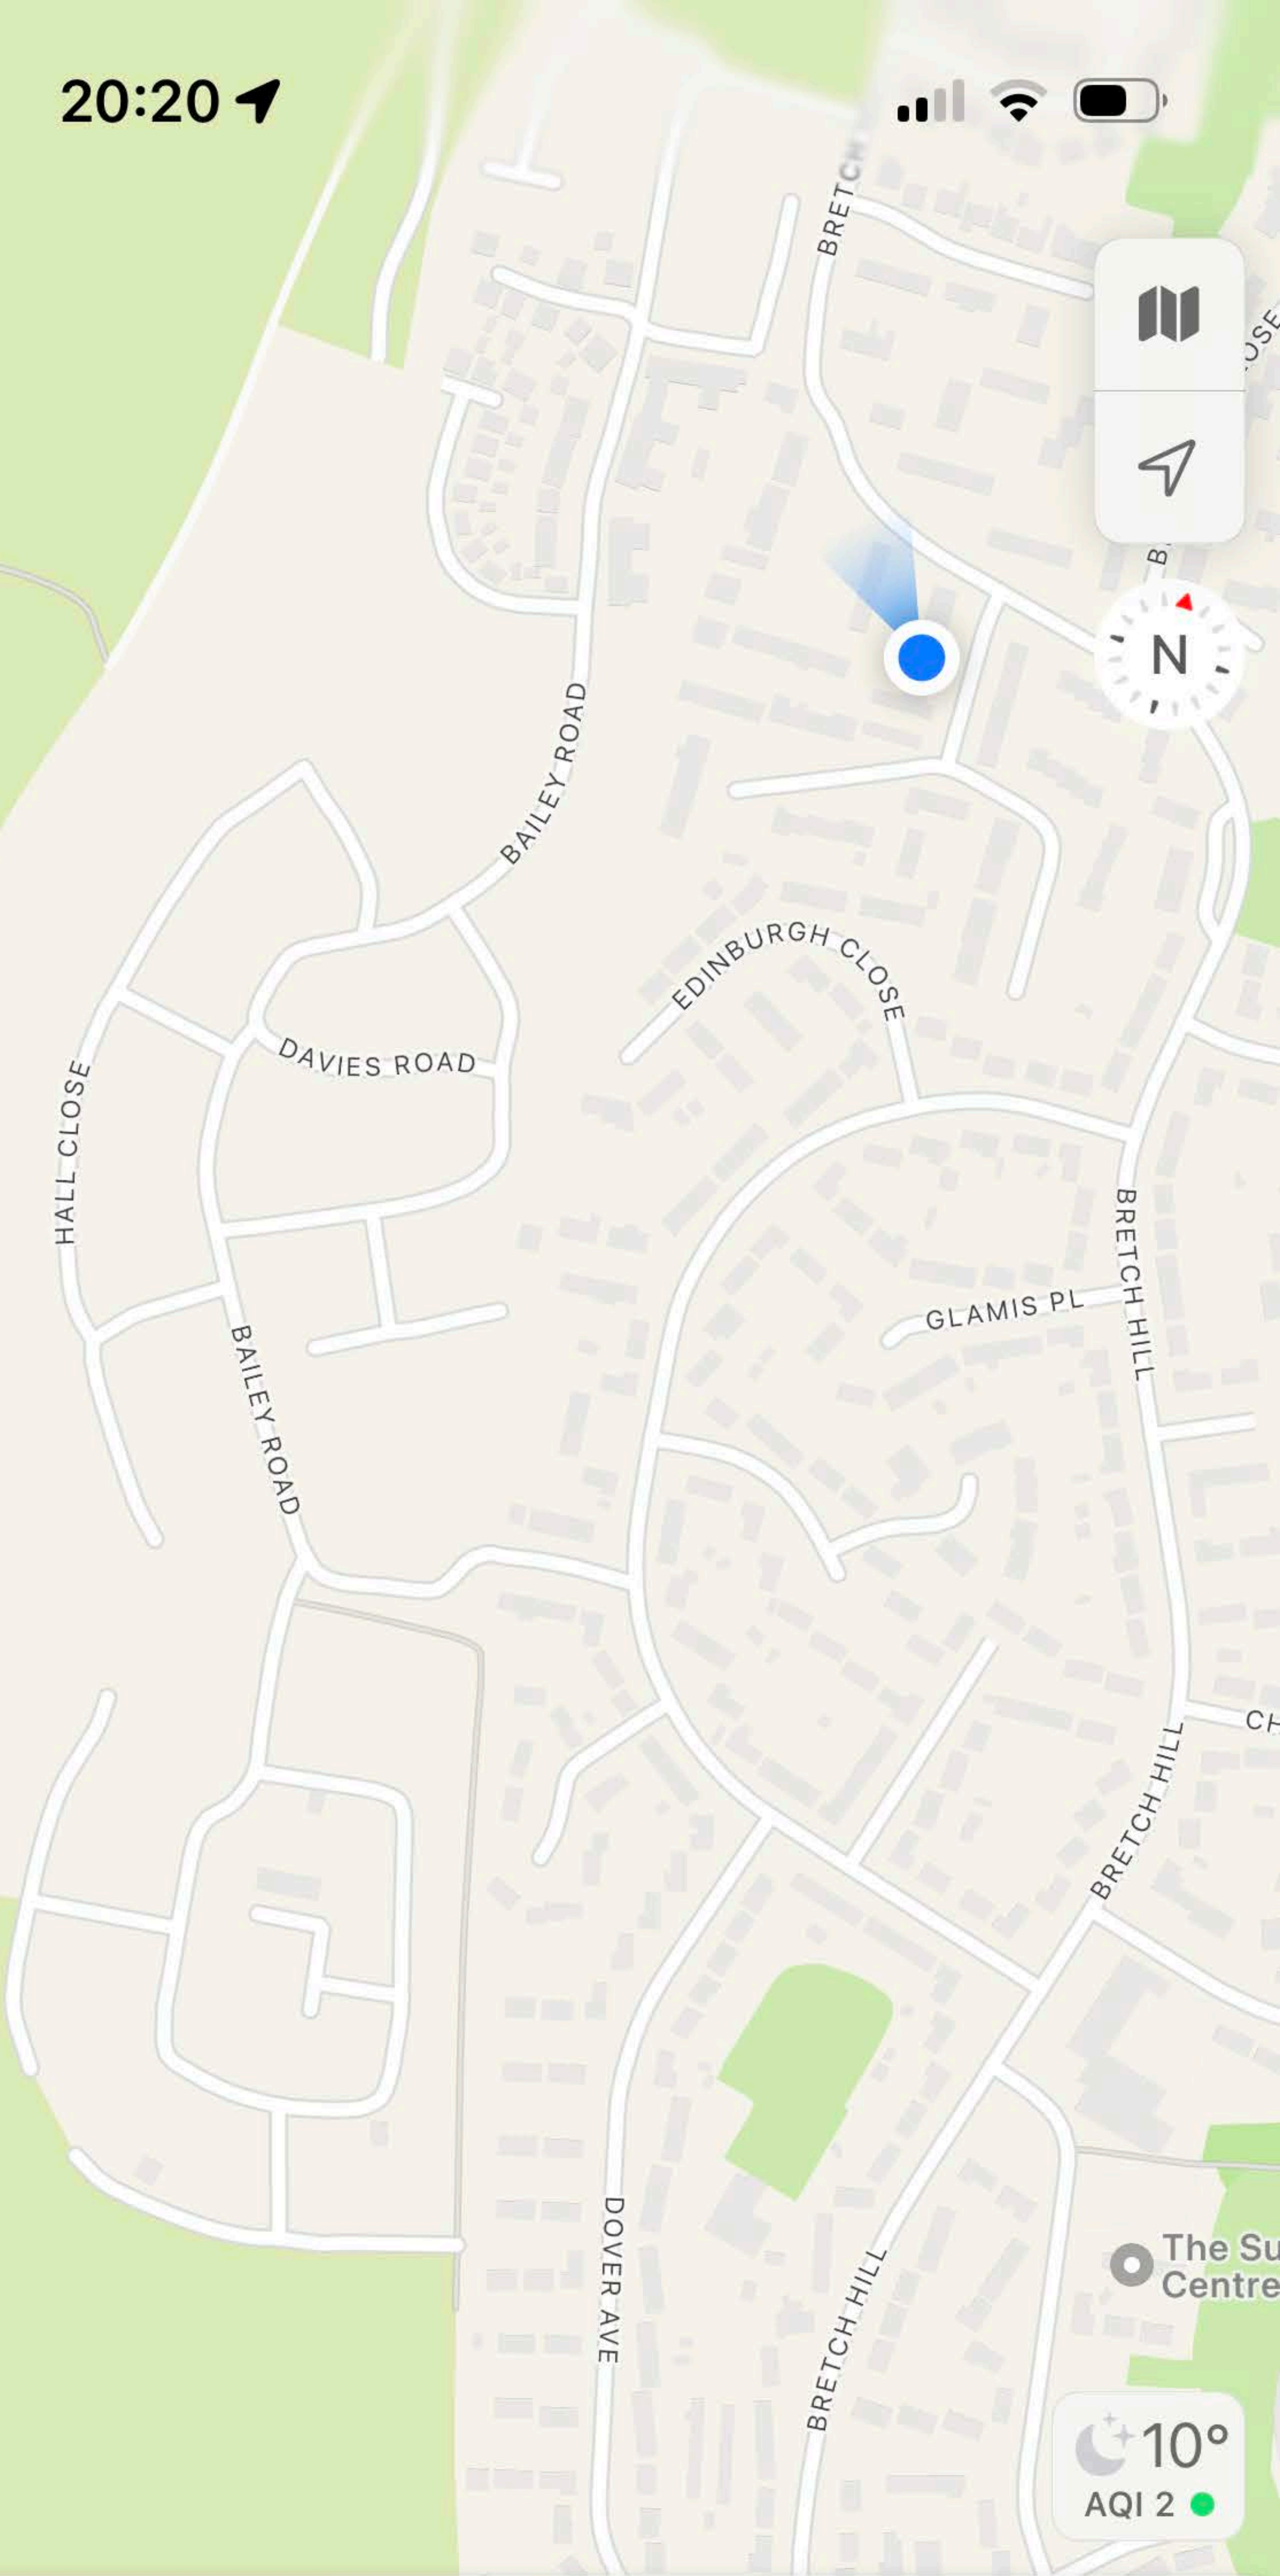

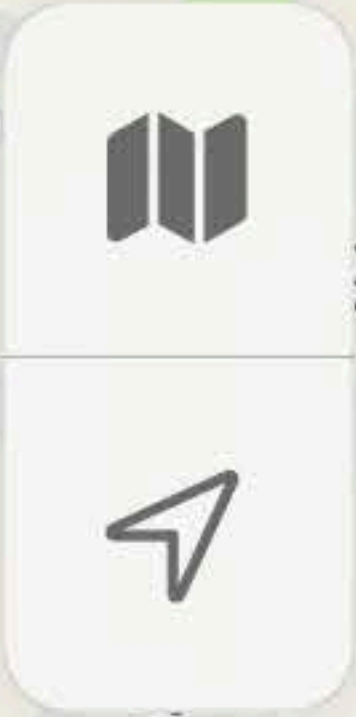

Whilst extending the new boundary into south Easington would see a boundary change radically . The number of voters per elected county councillor also needs to be checked by the commission

As local residents since 1974 and now an elected councillors since 2013 I urge the boundary commission to look again at these proposals .

I therefore formally object to the new 2025 boundary proposal for ruscote
