We are writing to express our objection to the proposed ward boundary changes put forth by the commission. Our objections stem from several key issues that we believe warrant our reasons of objection.

Firstly, the proposed changes do not appear to offer any benefits to the councils involved.

Secondly, we have noticed a discrepancy where part of the Parish of Hinton (Purton) is missing in the proposed changes, Purton is part of the Hinton parish. There is a mention of the other areas in the Parish , Sharpness & Hinton but no mention of Purton.

Lastly, it appears that the proposed adjustments rely heavily on large developments in the areas. We belie that if things are working fine, why change them.

We appreciate the efforts of the boundary commission and understand the complexity of the task at hand. However , we firmly believe that addressing these concerns will contribute to a fair and well balanced outcome for our community.
