**Related subject:** Brimscombe divide proposal

Unfortunately this has only come to my attention and I don't have all the facts but one simple fact is the prospect of being spilt?Painswick& Bisley seem and are a fair distance, there is no connection, I find this not only non- sensical but disconcerting! I have lived in Toadsmoor road for 16 years, I have found connection and understanding within my environment and trust in my ward representatives, who appear to do a good job. What benefits are had from splitting a community? A divide within a community can only lead to uncertainty!!
