**Related subject:** Moving Trinity ward to the Bisley and Painswick division

I would like to put forward my objection to this proposal. Trinity ward is an urban area, and includes several important Stroud town amenities. We are an area with a strong sense of community, as part of Stroud town, and feel we share in it's issues, needs and requirements, which are very different to Bisley and Painswick. In addition, it would be unhelpful to have different district boundaries to the town council as this would complicate decision making. Even in your proposal you admit that it is 'not ideal', so why should the residents of Trinity ward accept a less than ideal local government configuration?
