Related subject: Upton St Leonards

Did you make the 'map' as complicated as possible so that no 'normal person' - ie not an IT expert - would understand it & thus not make any comment?

I find it very odd that one minute Upton St Leonards is bundled in with Painswick, which we can all understand & agree with, but the next map says Haresfield & Upton SL - these 2 areas have very little in common so this is a disaster for both.
