Related subject: Bisley & Painswick Ward

I disagree with the suggestion that the Trinity ward of Stroud Central electoral area be moved to become part of the Bisley & Painswick electoral area. I feel this will divide Stroud Town and its amenities which will be covered by different councillors at parish and county council level, potentially leading to fragmentation and differentiation in approach to governance in these areas and how services and amenities are supported and run. Adding part of what is currently a densely populated and small electoral area to a much larger rural constituency seems an odd contrast, and a very large area for potential councillors to represent and understand. Stroud Central should contain the main body of the Stroud Town geographical area.
