**Related subject:** Owlpen

I am the postman for Uley village which incorporates all of Owlpen under its umbrella. I am also a resident of Uley living a stones throw from the Owlpen divide. I know everybody in the Uley and Owlpen area and I know their affiliations and togetherness as a village community, they are not two separate entities, they are one and the same. The division of these jurisdictions would have a detrimental effect on their ability to act as one in achieving collective goals for their combined mutual needs. I find these proposals ill thought out with no due diligence performed to even try and begin to understand the communities in which you seek to change.
